

Nature Friendly Products

Better days with
Environmentally Friendly products

We feel responsible for a healthy future that we will leave to our children.
We do our best to take good care of the environment and the future with our wooden products made of sugarcane, compostable cardboard plates and glasses, FSC Certified.

Nature Dreams

SUGARCANE PRODUCTS

Features

- ✓ It is produced from sugarcane cellulose, which is a renewable resource.
- ✓ Can be used in microwave oven.
- ✓ It has an internationally valid Compostable certificate.
- ✓ Composting is a recycling method which is bringing together organic wastes and digesting them under controlled conditions.
- ✓ Organic fertilizer is formed as a result of composting.
- ✓ Due to its high strength, it does not bend or reform.
- ✓ It is ideal for use in the Ho-re-ca and Catering sector such as picnic, invitation and all kinds of organizations.

Compostable

CARDBOARD PRODUCTS

Features

- ✓ They have an internationally valid Compostable certificate.
- ✓ Composting is a recycling method obtained by combining organic wastes and decaying them under controlled conditions.
- ✓ Organic fertilizer is formed as a result of composting.
- ✓ It is produced from cellulose, a sustainable natural resource.
- ✓ A combination of water-based lacquer and paper, suitable for contact with food, is provided. It is produced from liquid impermeable paper.

WOODEN PRODUCTS

Features

- ✓ Our wooden products are made of 100% wood, which is a sustainable natural resource.
- ✓ Wooden products have FSC certificate. In other words, raw materials obtained from industrial forests were used in the production of roll-up wooden forks, spoons and knives, and the environment was not harmed. Our wooden products are 100% recyclable.

PAPER STRAWS

Features

- ✓ Paper Straws are produced from cellulose, a sustainable natural resource.
- ✓ No harmful dyestuffs for health and nature were used.
